

Project Worksheet 1
Behavior Over Time

Name of Current System(s) (practices, policies, and procedures) Involved:

Purpose of System:

Components:

Intangible Components:

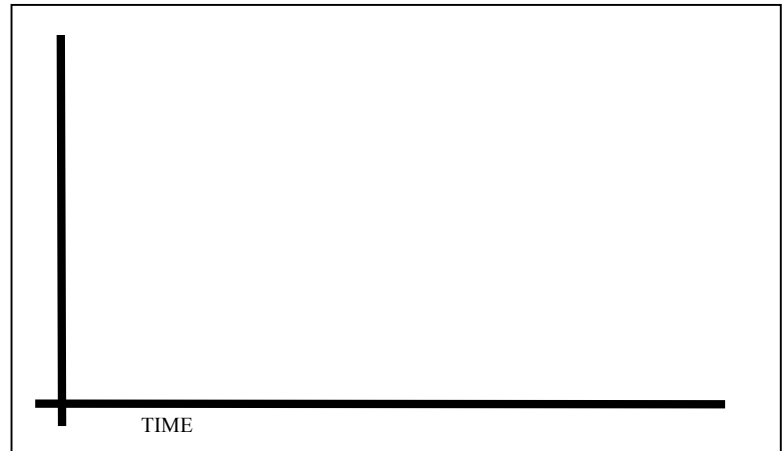

Briefly describe the concern. Be sure to include its relationship to your school
Mission:

What data supports the need for working on this system?

Draw a graph of the problem to the right.

What do you see?

Could actions being taken to solve the problem actually be making the problem worse? How?

History in the Making

Imagine yourself at one of the earlier points on the time-line. Is there anything going on that resembles the present problem? Or is there another problem that alternates with yours? Is there a parallel problem?

Project forward on the time-line. What do you expect to happen in the future if no changes are made?
